the three grandest names of carlovingian lineage are so closely connected and so nearly contemporary that the history of one of their number necessarily involves that of the others for this reason a sketch of the memorable career of the first charles surnamed the hammer may not be an inappropriate introduction to the life of his grandson and namesake called the great

charles i often known as charlemagne is one of the most extraordinary figures ever to rule an empire driven by unrelenting physical energy and intellectual curiosity he was a man of many parts a warlord and conqueror a judge who promised for each their law and justice a defender of the latin church a man of flesh and blood in the twelve centuries since his death warfare accident vermin and the elements have destroyed much of the writing on his rule but a remarkable amount has survived janet nelson s wonderful new book brings together everything we know about charles sifting through the available evidence literary and material to paint a vivid portrait of the man and his motives charles s legacy lies in his deeds and their continuing resonance as he shaped counties countries and continents founded and rebuilt towns and monasteries and consciously set himself up not just as king of the franks but as the head of the renewed roman empire his successors in some ways even up to the present day have struggled to interpret misinterpret copy or subvert his legacy

this splendid edition contains both ancient biographies of charles the great by einhard and the monk of st gall edited translated and introduced by arthur james grant charlemagne is often termed the father of modern europe in that he implemented the earliest foundations of germany france holland and belgium demonstrating great talents in both war and peace charles the great was able to unite much of europe to an extent unseen since the time of the roman empire although charlemagne only reigned for fourteen years his actions while on the frankish throne were of far ranging consequence his wars against the saxons his expedition into muslim spain and his strengthening of

relations with the papacy of rome helped solidify christianity within the european continent although his reign was violent it ushered in civilization to europe via unification of its peoples

the age of charlemagne was a crucible for change in the history of europe bridging the divide between the medieval and the classical worlds and setting the political and cultural tone for centuries to come this book focuses directly on the reign of charlemagne bringing together a wide range of approaches and sources from the diverse voices of fifteen of the top scholars of early medieval europe the contributors have taken a number of original approaches to the subject from the fields of archaeology and numismatics to thoroughly researched essays on key historical texts the essays are embedded in the scholarship of recent decades but also offer insights into new areas and new approaches for research a full bibliography of works in english as well as key reading in european languages is provided making the volume essential reading for experienced scholars as well as students new to the history of the early middle ages

revisiting one of the great puzzles of european political history jennifer r davis examines how the frankish king charlemagne and his men held together the vast new empire he created during the first decades of his reign davis explores how charlemagne overcame the two main problems of ruling an empire namely how to delegate authority and how to manage diversity through a meticulous reconstruction based on primary sources she demonstrates that rather than imposing a pre existing model of empire onto conquered regions charlemagne and his men learned from them developing a practice of empire that allowed the emperor to rule on a european scale as a result charlemagne s realm was more flexible and diverse than has long been believed telling the story of charlemagne s rule using sources produced during the reign itself davis offers a new interpretation of charlemagne s political practice free from the distortions of later legend

a biography of the frankish warrior and medieval christian king who built a great empire in western europe

charlemagne s early campaigns is the first book length study of charlemagne at war and its focus on the period 768 777 makes clear that the topic for his forty six year reign is immense the neglect of charlemagne s campaigns and the diplomacy that undergirded them has truncated our understanding of the creation of the carolingian empire and the great success enjoyed by its leader who ranks with frederick the great and napoleon among europe s best the critical deployment here of the numerous narrative and documentary sources combined with the systematic use of the immense corpus of archaeological evidence much of which the result of excavations undertaken since world war ii is applied here in detail for the first time in order to broaden our understanding of charlemagne s military strategy and campaign tactics charlemagne and his advisers emerge as very careful planners with a thorough understanding of roman military thinking who were dedicated to the use of overwhelming force in order to win whenever possible without undertaking bloody combat charlemagne emerges from this study to paraphrase a observation attributed to scipio africanus as a military commander and not a warrior

this is a new account of the most important period in the history of europe between the end of the roman empire and the italian renaissance the reign of charlemagne 768 814 saw the unification of many areas of france italy and germany spain and central europe as well as the revival of the title emperor in the west at the same time the cultural and artistic revival that took place in western europe under charlemagne s rule both led to the preservation of much of the intellectual heritage of antiquity and inspired succeeding generations of scholars and artists up to the time of the renaissance while the empire that charlemagne created proved short lived the title holy roman emperor remained in continuous use until 1806 and his achievements have inspired a succession of both military conquerors and would be unifiers of europe up to the present day numerous

ideas and institutions were revived or created in this period which would serve to shape the future development of western europe throughout the middle ages and beyond

Recognizing the quirk ways to acquire this books **The History Of Charlemagne** is additionally useful. You have remained in right site to begin getting this info. acquire the **The History Of Charlemagne** connect that we have the funds for here and check out the link.
